How often do ballet students get to study under the guidance of a master teacher while training alongside working professional ballet dancers? Ballet Montana Academy once again offers this a one-of-a-kind opportunity to a very limited number of serious ballet students during the summer of 2012. Experience career-dedicated classical-ballet training with the cast of Ballet Montana during their summer performance residency on the campus of Carroll College. From daily company class to technique/variation/pas de deux instruction and apprenticeship rehearsal for this year's productions, Ballet Montana Academy's five-week full-time summer intensive offers a rare and unique opportunity to study alongside professional ballet dancers from around the country.

Auditions for the **Summer Professional Apprenticeship 2012** are open to advanced students age 15 and over, and consist of one 60-minute private ballet class with the director. Auditions will be scheduled on an individual first-come-first-served basis through March 17th; the class/audition fee is \$50, non-refundable.

Tuition for the **Summer Professional Apprenticeship 2012** is \$1950 with \$500 due upon registration, followed by two installments of \$725 each payable prior to May 1st and June 1st; on-campus dorm housing is available for \$490. Ballet Montana Academy will be offering scholarships of \$750 and \$500 at the MDAA Spring Workshop.
